

ODOR

Odor Control Filter Assembly for Wastewater Air Valves

A.R.I. Flow Control Accessories is proud to introduce a new innovative solution for odor control in wastewater systems.

The special assembled unit can be installed on the A.R.I. combination air valves for wastewater.

The unit absorbs the noxious odors emitted from a wastewater system which are a nuisance both in the residential as well as in the work environment.

The odor control screen assembly can be installed on A.R.I. wastewater air valve models D-020, D-025, D-023.

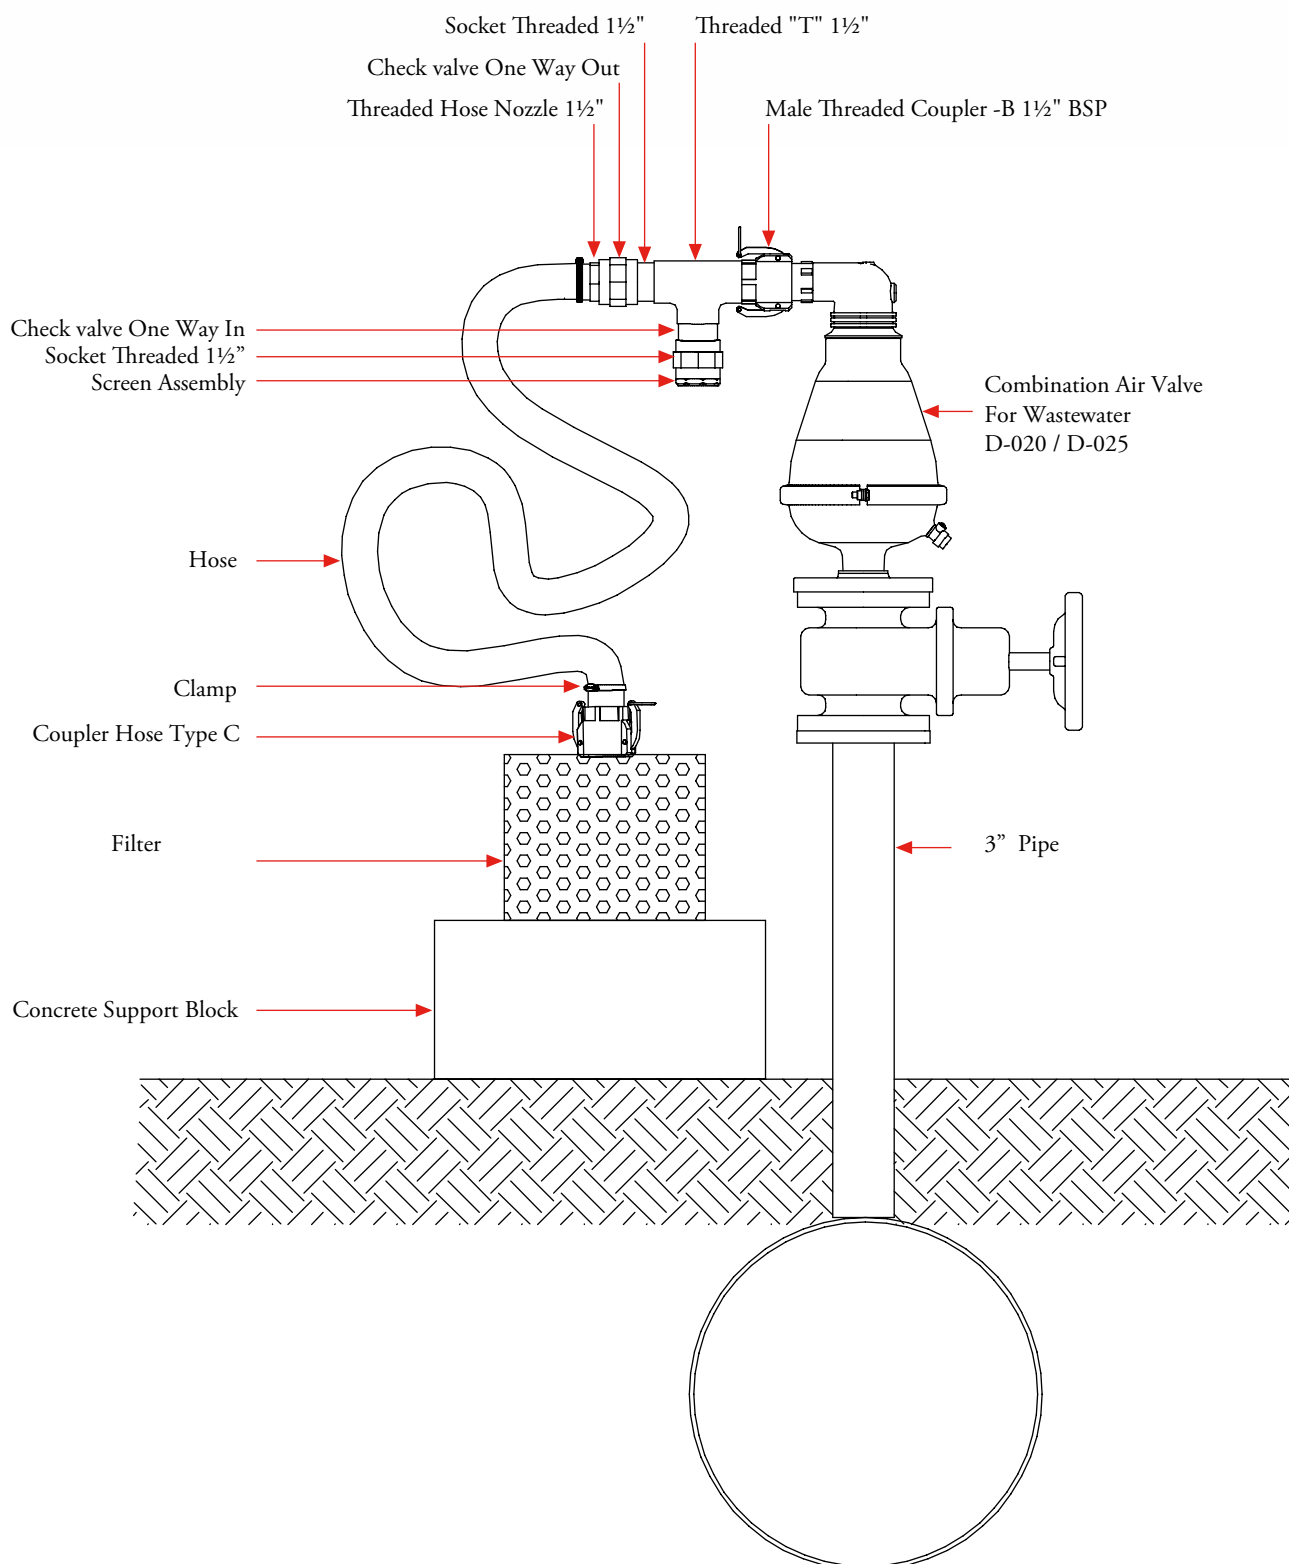

The unit is both portable and disposable.

No heavy equipment is needed and there is no messy disposal of spent carbon.

Filter Model	1214	1620	1630
Maximal Flow Capacity	200/350 m ³ h	420/713 m ³ h	600/1000 m ³ h
Outlet	2"	2"	2"
Dimensions	30x32.5 cm	41.25x49.25 cm	41.25x73.75 cm
Weight	7 Kg.	18 Kg.	27 Kg.
